

Align by 10 random target words.
Average similarity before alignment = 0.33.
Average similarity after alignment = 1.00.

Align by 100 random target words.
Average similarity before alignment = 0.32.
Average similarity after alignment = 0.98.

Align by 1000 random target words.
Average similarity before alignment = 0.31.
Average similarity after alignment = 0.89.

Align by 10000 random target words.
Average similarity before alignment = 0.31.
Average similarity after alignment = 0.86.
